Work experience

- **Senior Front End Developer - Parasanté Online**
  Nîmes | Since January 2025
  Development of a CMS in React to replace a WordPress solution for the website Parasanté Online, to create a solution tailored to their needs, and reducing loading times by 15%.
  E2E and Unit tests with Cypress.

- **Senior Front End Developer - Marmalade**
  Berlin | February 2024 - July 2024
  Built agency-owned products using React and Next.js.
  Contributed to client projects using Angular, delivering scalable front-end architectures, improving load performance by 25%.

- **Front End Developer - Nielsen**
  Warsaw | January 2020 - January 2024
  Developed internal tools in React, TypeScript, and GraphQL.
  E2E and Unit tests with Cypress (July 2022 - January 2024).
  Product Designer (Jan 2020 – Sep 2021), where I created a component library on Figùa, which I coded in my Front end developer position (January 2020 - September 2021).

Education background

- **AI Engineering Bootcamp - Ironhack**
  Online | 2025
  An intensive program focused on Artificial Intelligence, Machine Learning, and data analysis. Final project: developed a chatbot that generates React components.

- **Web Development Bootcamp - Ironhack**
  Berlin | 2021
  Projects included a JavaScript game, an event management app, and an artist booking platform.

- **UX / UI Bootcamp - Ironhack**
  Paris | 2018
  Projects included iOS app design. Covered design thinking, user research, personas, wireframing, and prototyping using Sketch and Flinto.

- **MSc Creative Technology - Middlesex University**
  London | 2016 - 2017
  Final project: Developed a mobile application and website to help users easily find housing.

- **Master's degree in Marketing and Advertising -ISCOM**
  Lyon | 2012 - 2016
  Dissertation title: The share of m-commerce in online purchases, or how mobile apps will take over websites.
